### **What we are NOT doing- Monetizing these relationships.** For us that means we are NOT

1. Asking you to sell our products or for a share in the profits from your products, nor are we asking you to do the same with us.
2. Offering any kind of discounts, rebates or freebies to our partners. To partner, click here:

### **We are NOT setting the Spirit's agenda. For us that means we are NOT**

1. Refusing to partner with organizations that might unsettle other members of the Church. Our tent space is open as long as the organization is invested in unleashing synodality in the Church.
2. Making false peace. The Spirit unsettles, unseats, asks for difficult debate and disagreement on the way to discovery. We will not step away from these challenges. We invite our partners to learn with us how we do this and remain one Body in Christ.
3. Boosting a single synod-related cause or idea. We are concerned with making synodality possible and so are interested in being in a partnership with all organizations practicing synodality and so teaching the rest of the Church how this goes/grows. The individual causes around which this work is being done belong to each organization. Our cause is synodality as a way of being Church. Period.
